

DATA AS OF JUNE 30, 2024

We look to buy and hold a variety of extraordinary businesses and real estate.

The Pillars of Our Approach

- i) Exposure to high quality equities and real estate assets
- ii) Seasoned options expertise
- iii) Track record of downside risk mitigation
- iv) High focus on liquidity
- v) Seeks to out perform market

OVERVIEW

547 Investments LLC maintains a long-term perspective while focusing on high quality assets including a core long-equity and real estate portfolio, complemented by a managed options overlay. Our tactical approach leverages market dynamics and equity volatility in the options market to generate alpha, while also maintaining a strong emphasis on fundamentals and liquidity.

KEY FEATURES

Our fundamental long-term investment approach capitalizes on opportunities across multiple asset classes, with a focus on favorable tax consequences. Investing in equities and real estate enables us to take advantage of opportunities in one market when the other experiences weakness. Every investment is made with an objective to out-perform.

Our team utilizes option strategies to take advantage of dynamic market opportunities while being favorably positioned for various outcomes.

PORTFOLIO FIT

Our option-based risk-management strategy can provide upside participation in equity markets while limiting downside exposure, thereby improving the quality of the ride. Our real estate investments can provide a hedge in down equity markets while also not sacrificing long term performance.
